IMPORTANT INFORMATION

Please make sure you have read and understand the following important information in regards to warehoused grain and grower outturns.

Movements – warehoused grain may move from the original site of delivery during outloading operations throughout the year and is also subject to essential harvest movements. Where movements occur, you will be responsible for any freight costs incurred for that movement. Where you have notified CBH that you may need to outturn grain, CBH will make every endeavour to contact you prior to moving the grain, however this may not always be possible. If movement has occurred, CBH will provide alternative site options for outturn.

Freight – charges will be based on the freight differential between the receival site and the outturn site freight between the physical delivery site and the outturn site. Freight rates are published on the website and subject to change.

Quality & Entitlement – you can outturn the total net quantity of your warehoused tonnage after shrink has been applied. The quality of the total warehouse amount will be outturned to the applicable receival standard for the requested grade. Testing will be conducted on the aggregate of tonnes outturned and not individual loads. Optimised loads cannot be used as part of an outturn request. If outturn is required for optimised loads, a request to un-optimize the loads must be made as part of the outturn request.

Collecting Grain – once an outturn date and site is agreed, CBH will transfer the requested tonnage into a 'warehouse account' for outturn. Please book an outturn day/time with CBH Site Contact Person provided on your completed Grower Outturn Request. The contract/release number must be provided to site staff when grain is collected.

Outturn Expiry - Each request for Outturn will be allocated an Expiry Date based on the Outturn Site activities. After the Expiry Date has passed, the associated contract/release number will be invalid. Grain must be outturned by the Expiry Date or the outturn site may be changed at CBH's discretion. If outturns are not fully completed within the timeframes provided, CBH will transfer any residual amount of 'warehouse account' tonnes back to your un-nominated entitlement. If further outturn is required, you will need to submit a new outturn request.

Notice Period – Outturn requests must be provided no later than 10 business days prior to the date on which the Outturn is proposed to commence.
